

5 30 13, follow up intake, with LE

Role of EOO, no retaliation

Why feel discriminated against?

Financial aid office and SBO, have to treat everyone exactly the same b/c of individual circumstances b/c of medical hardship withdrawal. I don't think it was anything personally against me, I am not a standard student.

WAC for state need grant says you can calculate by credit hours or SBO can extend refund deadline for medical reason. She will see if she has it on her computer.

Outcome: been dealing with this since December, tried to keep going when got pregnant, working temp part time in business services, falling behind in classes

Next steps: to talk to Bob

Concern about implementation of WACS

Concern about paying back, any wiggle room in payments?

Registering for class as employee, \$30 credit hour, already kicked out of university b/c she could not register for fall quarter or winter quarter

Trying to get general studies degree, TESOL

LE discussed EAP, DRS, accommodations for employees

will talk with LE again if anything points towards discrimination based on disability or pregnancy
